Wayne,

Could you send us the following information? If the well is no longer in service, please let us know.

KAFB15	screen top and bottom elevations		
KAFB-1	pumping rates (monthly rates from 2011-2012 preferred)		
KAFB-12	pumping rates	"	"
KAFB-13	pumping rates	"	"
KAFB-2	pumping rates	"	"
KAFB-5	pumping rates	"	"
KAFB-6	pumping rates	"	"

Subject: RE: KAFB Water Supply Well Info Needed

Sorry for the delay, I will send the info in several emails, some files are large. Zeros indicate wells were not in production during those times or down for O&M.

I'm missing the Boring Log for the newest production well #20, will try to locate and forward

Wayne Bitner

Hi Wayne,

I just left you a message on your voice mail. Just checking on the status of our request for the Kirtland AFB water supply well info. I am getting ready to go on maternity leave. So when you send us the data, could you please send it to Scott Ellinger and Paul Torcoletti. Their email addresses are shown below. If you have any questions about our modeling project, you can contact Scott Ellinger who is actually preparing the model. His phone number is 214-665-8408.

ellinger.scott@epa.gov
torcoletti.paul@epa.gov

Subject: KAFB Water Supply Well Info Needed

Mr. Bitner,

The U.S. EPA Region 6 is currently developing a groundwater model to assist NMED with determining the fate and transport of ethylene dibromide (EDB) in the aquifer resulting from the KAFB Bulk Fuels Facility Fuel Spill. To make an accurate model, we must incorporate information from all water supply wells within the model boundaries, which includes the KAFB water supply wells. We would like the following information on the KAFB water supply wells. If you have any questions or concerns, please feel free to call or email me. Thank you for your assistance.

Water supply well information needed:

- Well coordinates in latitude-longitude, UTM, or similar coordinate system.
- Elevations of top and bottom of each well screen. If individual wells have multiple screens, please provide top and bottom elevation for each screen. If screen data can only be reported as depth below ground surface, please also provide the ground surface elevation so that screen data can be converted to elevation units (mean sea level).
- Pumping rate for each well (gallons per minute) and the dates when the pumping rate is applicable. Please report the pumping rates between December 2011 to February 2012 if possible. For any wells that were inactive between the above dates, indicate their inactivity with a pumping rate of 0 gallons per minute and the dates when such wells were inactive.
- Name and phone number of a staff person for any follow up questions.
